

Poole MapRun Details

Scoring: 1-10 = 10 points, 11-20 = 20 points, 21-30 = 30 points, 10 point per minute penalty if over 60 minutes

Please respect the private estate SW of control 7 that is clearly marked OOB on the map – there is no public right of way through. Anyone crossing this area may be disqualified or given a significant penalty.

The punching tolerance has been set to 20m. There appears to be some minor misalignment in the south-eastern corner of the map, but this should be enough tolerance to compensate.

Competitors should always navigate to the control site (no cheating if you get an early ping!). If you are certain that you are at the control site and Maprun hasn't pinged, running in circles is unlikely to help and wastes time. Competitors should move on to the next control and use the HITMO function to add the non-registering controls once finished.

Note, triggering the finish control once at least one points control has been collected will end your run and it cannot be restarted. The finish is located such that there is enough space to avoid it in the unlikely event you wish to pass that way mid-course. Also note that the Start and Finish are near each other, but not in the same place on this event. They are near The Angel pub and the Guildhall. Quay Visitors Car Park is not too far away.
