

## STUDLAND DUNES INFORMAL AND BBQ

The inaugural event on the Permanent Orienteering Course at Studland Dunes was a great success, with over 40 participants. The weather was on our side, inasmuch as it didn't rain, although it was a bit breezy and the temperature dropped as the evening went on. Most people also stayed for a BBQ, and some brave (crazy?) souls even ventured into the sea!

There was a choice of courses, all based on lettered controls, as opposed to numbered ones. So, for example, the course "**SWANAGE BAY**" involved visiting the controls as they are written in the words – i.e. **S** then **W** then **A** and so on.....

The results are as follows:

There was also a 30 minute Score event for those competing in the Summer Series. The results were as follows:

Finally, a huge thanks must go to Bill Brown and Richard Arman for producing such a lovely map, and to the National Trust who actually provided and installed the very substantial permanent control posts.
